PROFESSIONAL OBJECTIVE

Third-year B.Tech student in Computer Science and Information Technology (CGPA: 8.82) seeking a Software Development, SQL/Database, or Data Analysis internship. Applied SQL and relational database design in a hands-on e-commerce data analysis project and developed a web-based software application. Proficient in Python, Java, and C, with practical exposure to cloud computing and AI through virtual internships. Looking to apply programming, database, and analytical skills to real-world software development and data-driven projects.

EDUCATION

B.Tech - Computer Science and Information Technology (CSIT) | 2024 - 2028

SRKR Engineering College

Currently in 3rd Year | CGPA: 8.82

Relevant Coursework: DBMS, Data Structures & Algorithms, Operating Systems, Computer Networks, Human-Computer Interaction (HCI), Design Thinking

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Database Management: MySQL, SQL, PostgreSQL, DBMS

Web Technologies: HTML, CSS, JavaScript

Tools: Git, GitHub, VS Code, MySQL Workbench, Figma

Cloud: Cloud Computing, AWS Fundamentals

PROJECTS

Olist E-commerce SQL Data Analysis

Technology: MySQL, SQL

- Imported multiple Olist e-commerce CSV datasets and organized the data into relational tables using MySQL.
- Performed SQL-based data analysis using joins and aggregate functions on customer, order, product, seller, review, and geolocation data.
- Evaluated product categories, customer distribution, review scores, seller revenue, and order trends to generate business insights.

CODE PREMIER LEAGUE (CPL) Management Software

Web-based Application

- Developed a web-based application to manage sports league operations from registration through winner declaration.
- Designed team registration and competition scheduling features to organize league participation.
- Created round management and score entry functionality to track match progress.
- Organized leaderboard tracking and winner declaration features for completed competitions.
- Used Git and GitHub for version control throughout development.

INTERNSHIPS & CERTIFICATIONS

Prompt Engineering for AI - 8-Week Internship | Completed: August 2026

EduSkills Academy

Cloud Virtual Internship - 10-Week Virtual Internship | Completed: October - December 2025

AWS Academy / AICTE-EduSkills

SQL and Database Management Systems - 8-Week Virtual Internship | Ongoing: August - October 2026

AICTE-EduSkills

ACHIEVEMENTS & ACTIVITIES

- Participated in Project Genesis with the problem statement "CODE PREMIER LEAGUE (CPL) Management Software" (25/07/2026 - 30/07/2026).
- Participated as a team member in a poster presentation event.
